Introduction

There are two types of users for Connexxus:

- Travelers
- Travel arrangers

This guide is intended for use by travelers and travel arrangers to view, update, and save travel profiles.

When you have finished entering information, click Save. Connexxus saves your new/updated profile information, and synchronizes the information throughout the Connexxus system and travel databases within a few minutes. If you have begun to enter information in a section, you must complete all required fields in that section before you can save your profile.

**Note:** After 30 minutes of inactivity, your session automatically ends and the system logs you out of Connexxus. If you have made changes but did not click “Save”, your changes are lost when the system automatically logs you out.

Required Information

Connexxus has two types of required information:

- **Mandatory Fields**: These are fields that must contain information, such as your address, city, state, zip code, country, business phone, and preferred airport. If these fields are blank, you will not be able to save/update your profile. Some of these fields appear when you select a related option. For example, the State field only appears when you select a country that has states. The Date of Birth field in the General section is only required when you add passport information to your profile.
• **Conditional Fields**: These are fields that must be completed only if you have entered information in other fields of the same section. For example, in the Payment section, if you select a card vendor from the drop-down list in the Company Card subsection, you must also enter your card number, expiration date and set the billing address. This applies to all fields that are not mandatory fields as described above.

If you click the Save button but have not completed all required information, Connexxus displays a list of the fields that you must revise before you can save your profile. **Important**: None of your information is saved until you revise all fields in the error list.

When you have finished entering information, click **Save**. Connexxus saves your profile information and synchronizes the information to the travel agencies (except SWABIZ)
